Dear Reader,

Thank you for downloading this record book. I have long admired the detailed state meet programs and state record books published by the MPSSAA. I desired similar record books for the Montgomery County Championship Meets, but no such books existed. Furthermore, detailed meet results were all but lost to newspaper archives. To me, this was not acceptable in the digital world in which we live today.

I sought out results for every county championship meet for cross country, indoor track, and outdoor track. This involved many hours at a microfilm machine and digging through old boxes of files belonging to coaches who hang on to such things. Many more hours were spent organizing the collected data so that the results are now available online and sorted several ways in this record book. After sifting through the data found in these pages, I know that you will agree that the effort was well worth it.

Mocorunning.com has been a source of cross country and track & field news, results, statistics, analysis, and photographs for Montgomery County since 2006. Mocorunning.com is not affiliated with MCPS, but it is owned and operated by a proud product of Gaithersburg High School. I hope that you enjoy reading this book as much as I enjoyed creating it.

## Montgomery County Cross Country Championship Meet History

What is a county championship meet? From the mid-1980's and thereafter, the answer is obvious: it is the meet where every team in the county competes for bragging rights to secure a county ranking for the year, or better yet: a county championship title. Presently, the county championship is a meet that coaches and athletes circle on their calendars every year. It is a celebration of the best young runners in our community, regardless of school size or classification.

That definition of a county championship was not the definition known to coaches and athletes prior to the mid-70's. Prior to 1977, the term "county meet" referred to the collection of district meets. The district meets were the qualifying races for the state championship meet. The districts were divided into classifications: "AA" (largest), "A", "B", and "C" (smallest). Sometimes, the smaller classifications were combined into "BC" or "ABC" races. These district meets usually consisted of only Montgomery County schools and therefore the combination of district races was also referred to as the county championship meet. Multiple county champions were named each year - one for each classification. Those early county champions prior to 1977 were more akin to today's regional champions.

The present day notion of a "classless" county championship meet was in a sense born out of the evolution of women in running. Dottie Rowe from Gaithersburg High School was the first female high school runner in Montgomery County. In 1971, Rowe petitioned to run on the boys cross country team at her school. After initially being denied, that ruling was overturned and she ran with the boys team for the season. That paved the way for girls cross country in Montgomery County. (Williams, 1977)

By 1973, there were enough female runners in Montgomery County that some schools could field complete girls teams with five or more girls. These teams could compete in dual meets and invitationals, but cross country was not yet an official sport sanctioned by the MPSSAA for girls. Because there were no state championship races for girls, there were also no district meets for girls and the season might have ended abruptly after the last scheduled invitational meet. Instead of allowing this to happen, B-CC High School head coach Kerry Ward organized the first county championship meet for girls, a 2.3 mile hilly run at Lake Needwood. The inaugural race was completed by 37 girls. B-CC won that first team title behind individual champion Gale Morse (13:46). Whitman (2nd), Gaithersburg (3rd), and Springbrook (4th) were the other complete teams. Some of the participants nicknamed the meet the "Ms. Cross Country Championship" as an effort to draw attention to the fact that girls were running cross country. (Boss, 1973)

Under leadership of Coach Greg Dunston, Woodward High School took over ownership of the girls county championship meet in 1974 before finally in 1975 cross country became an officially sanctioned sport for girls in Maryland. Due to low statewide participation, there would be only one state championship race for girls with all classifications combined into one (as opposed to four boys' classifications). The girls then had a state-qualifying district race just like the boys, and because all classifications were combined into one, the district race for girls was exactly the same as the previous two county championship meets for girls.

In 1976, the state and district levels divided girls into two classifications based on school size, "AA" and "ABC." This ended the "classless" county championship race in Montgomery County, but one coach kept the idea alive. Coach Allan Bellman of Kennedy High School pushed for a true county championship meet, and his idea was realized with all teams combined into a single race in a new county championship meet format in 1977.

Unfortunately, the new championship meet was met with resistance from coaches who believed that it served no purpose and added one too many meets into the season schedule. Some coaches initially viewed the meet as a burden because it was scheduled so closely to the truly important state-qualifying meets. Many county teams opted not to attend the first several county championship meets, or they simply sent their junior varsity squads. By 1981, the Montgomery Journal described the county meet attendance as "dismal." (Niewiaroski, 1981, Oct. 30)

In 1981, attendance at the county championship meet became mandatory, but some teams still sent their JV squads (Niewiaroski, 1981, Nov. 2). Bellman continued to champion the meet despite the resistance. In 1985, he moved the meet to Calverton-Fairland Park closer to his school (Kennedy HS) and when he took the coaching job at newly-opened Watkins Mill High School and later Blake High School, the meet followed him there, too.

Maybe some coaches' arms had to be twisted, or maybe the meet simply gained traction due to the awards, the media recognition, the bragging rights or simply the spirit of the competition. By the mid-1980's, the county championship meet was an annual tradition and the county crowns became coveted prizes for the elite athletes and teams.

As Bellman prepared to step away from coaching, Herb Tolbert of Gaithersburg High School picked up the reins and hosted the county championship meet at Gaithersburg High School almost every year from 2000 to present. The course initially utilized the Gaithersburg High School campus and Bohrer Park, but in 2011, the meet moved entirely to Bohrer Park due to construction on the Gaithersburg High School campus.

For the purposes of this book, the first Montgomery County Championship Meet with boys and girls was in 1977.

# Historical Throwback: 1982, 1992, 2002, 2012, 2021

**1982 –** The 1982 meet went back to being an unscored meet after being scored the previous five years.

Sophomore Beth Jacobson of Kennedy High School had a breakout performance, winning the 2.5 mile race by fourteen seconds in 15:20. To that point, Jacobson was not considered the obvious top runner in the county as she sat in a pack of about ten runners through the first half of the race according to a race description published in the Montgomery Journal. She picked off her competition through hilly and rocky terrain on the back half of the course, and the rest was history. Jacobson went on to win three cross country state titles and is considered among the best in Montgomery County history.

Rockville High School's Willie McBeath bucked the trend of skipping the county championship in favor of facing competition that the Class 'A' runner otherwise would not see. "It was the only chance I'd have to run against Churchill and some other teams. Personally, it meant a lot to me," he was quoted saying in the Montgomery Journal. The Journal boys race description was similar to that of the girls in that McBeath waited until the second half of the race to make his move. He won the 3 mile race by seventeen seconds in 15:55 before going on to win the individual state title.

**1992 –** It was debatably (but probably) the greatest team battle in county championship meet history. The boys teams from Whitman and Quince Orchard tied with 36 points. 36 points tied a dominant 1988 Whitman boys team for the lowest point total in boys meet history. For two boys teams to tie with 36 points in the Montgomery County Championship Meet will probably never happen again.

Who won the sixth man tiebreaker? Whitman by 0.27 seconds. Whitman and QO took 12 of the top 17 spots, and the tiebreaker was decided by 0.27 seconds. The tiebreaking Whitman runner, Peter Kimball, was quoted in the Montgomery Journal saying, "This kind of makes the season for us...This was our biggest race." Whitman went on to win the 3A state title and QO won the 4A state title.

The Whitman girls won their 7th county title in 9 years while Walter Johnson's Sally Glynn won her first of four XC county titles in 19:41 at hilly Watkins Mill. Quince Orchard's Troy Harry won the boys race in 16:34.

**2002** – It had been a season of uncertainty. The crimes committed by the so-called DC Sniper forced athletic practices indoors and athletic competitions to be canceled for three weeks in September and October. Less than a week before the Montgomery County XC Championship Meet, it was believed that the perpetrators had been caught by the authorities, but as a precaution, the county meet was moved from the planned location of Gaithersburg High School to John Pool Middle School where it would presumably be more difficult for a sniper to attack and escape.

It was in that frightening context that the 2002 Montgomery County Championship Meet was contested with the lowest participation rate since the early 1980's. Only 16 boys teams and 11 girls teams recorded official scores in the varsity races. The Northwest boys defended their county title by defeating Damascus, 48 to 89, while the Walter Johnson girls out-dueled Northwest, 49 to 76. It was the fifth consecutive county title for the Walter Johnson girls while Northwest's female runner-up finish was the highest in school history at that time. The Northwest boys and girls won 2A state titles later that season.

Individually, Walter Johnson's Ashley St. Denis outran B-CC's Beth Catherwood, 19:58.6 to 20:17.2. Magruder's Awit Yohannes outran Gaithersburg's Eric Pauley, 16:25.1 to 16:36.7. Catherwood and St. Denis each won state titles in their respective classifications later in the season.

**2012** – Many have tried, but none have succeeded to top the still-standing course record (15:24.99) and runner-up performance (15:25.33) recorded by Poolesville's Chase Weaverling and Clarksburg's Will Bertrand in 2012. Not even Weaverling one year later had the juice to top his 2012 performance which was fueled by a desire to get back at an older rival who was presumed by many fans to have the better kick. No one ever questioned Weaverling's kick again after he held off Bertrand down a long home straightaway and recorded a course record time which still stands today. Bertrand went on to win the 4A state title and was otherwise undefeated against Maryland runners that season, while Weaverling would need to wait another year for his state title due to plantar fasciitis.

The girls race saw the emergence of a B-CC sophomore named Nora McUmber. McUmber would go on to win three consecutive county titles, a state title, and become one of Montgomery County's best all-time cross country runners by way of an NXN qualification, but in 2012, she was not known for dominant racing. A crazy, bunched-up race led by an aggressive freshman, Richard Montgomery's Sophie El-Masry, unlocked the warrior inside McUmber. McUmber tracked down El-Masry, and in hindsight, a star was born with her 2012 county title in 18:25.64.

The B-CC girls won their second consecutive county title while the Walter Johnson boys won their fourth county title in five years.

**2021** – 2021 saw the return to action after a canceled county championship meet in 2020 due to the COVID-19 pandemic. The meet was moved to a Monday for the first time since 2015 over fears of property damage after heavy rains. The Churchill boys and Walter Johnson girls returned to the top of the podium.

Walter Johnson High School tied Whitman High School for the most girls team county titles in meet history with 11 wins. WJ now has won 5 out of the last 7 XC county meets.

Churchill's boys county title was its 5th overall and first since 2011. Churchill is now tied with Walter Johnson for second most boys team titles in meet history (5). Whitman is first with 14 boys team titles.

Individual meet champions were Vari Higgins from B-CC in 18:11 and Andrew Schell from Walter Johnson in 16:00.
