

Montgomery County Cross Country Championship Meet

Record Book

Presented by mocorunning.com

2018

Dear Reader,

Thank you for downloading this record book. I have long admired the detailed state meet programs and state record books published by the MPSSAA. I desired similar record books for the Montgomery County Championship Meets, but no such books existed. Furthermore, detailed meet results were all but lost to newspaper archives. To me, this was not acceptable in the digital world in which we live today.

I sought out results for every county championship meet for cross country, indoor track, and outdoor track. This involved many hours at a microfilm machine and digging through old boxes of junk belonging to coaches who hang on to such things. Many more hours were spent organizing the collected data so that the results are now available online and sorted several ways in this record book. After sifting through the data found in these pages, I know that you will agree that the effort was well worth it.

Mocorunning.com has been a source of cross country and track & field news, results, statistics, analysis, and photographs for Montgomery County since 2006. Mocorunning.com is not affiliated with MCPS, but it is owned and operated by a proud product of Gaithersburg High School and MCPS. I hope that you enjoy reading this book as much as I enjoyed creating it.

Montgomery County Cross Country Championship Meet History

What is a county championship meet? From the mid-1980's and thereafter, the answer is obvious: it is the meet where every team in the county competes for bragging rights to secure a county ranking for the year, or better yet: a county championship title. Presently, the county championship is a meet that coaches and athletes circle on their calendars every year. It is a celebration of the best young runners in our community, regardless of school size or classification.

That definition of a county championship was not the definition known to coaches and athletes prior to the mid-70's. In the early-to-mid 70's, the term "county meet" referred to the collection of district meets. The district meets were the qualifying races for the state championship meet. The districts were divided into classifications: "AA" (largest), "A", "B", and "C" (smallest). Sometimes, the smaller classifications were combined into "BC" or "ABC" races. These district meets usually consisted of only Montgomery County schools and therefore the combination of district races was also referred to as the county championship meet. Multiple county champions were named each year - one for each classification. Those early county champions prior to 1977 were more akin to today's regional champions.

The present day notion of a "classless" county championship meet was in a sense born out of the evolution of women in running. Dottie Rowe from Gaithersburg High School was the first female high school runner in Montgomery County. In 1971, Rowe petitioned to run on the boys cross country team at her school. After initially being denied, that ruling was overturned and she ran with the boys team for the season. That paved the way for girls cross country in Montgomery County. (Williams, 1977)

By 1973, there were enough female runners in Montgomery County that some schools could field complete girls teams with five or more girls. These teams could compete in dual meets and invitationals, but cross country was not yet an official sport sanctioned by the MPSSAA for girls. Because there were no state championship races for girls, there were also no district meets for girls and the season might have ended abruptly after the last scheduled invitational meet. Instead of allowing this to happen, B-CC High School head coach Kerry Ward organized the first county championship meet for girls, a 2.3 mile hilly run at Lake Needwood. The inaugural race was completed by 37 girls. B-CC won that first team title behind individual champion Gale Morse (13:46). Whitman (2nd), Gaithersburg (3rd), and Springbrook (4th) were the other complete teams. Some of the participants nicknamed the meet the "Ms. Cross Country Championship" as an effort to draw attention to the fact that girls were running cross country. (Boss, 1973)

Under leadership of Coach Greg Dunston, Woodward High School took over ownership of the girls county championship meet in 1974 before finally in 1975 cross country became an officially sanctioned sport for girls in Maryland. Due to low statewide participation, there would be only one state championship race for girls with all classifications combined into one (as opposed to four boys' classifications). The girls then had a state-qualifying district race just like the boys, and because all classifications were combined into one, the district race for girls was exactly the same as the previous two county championship meets for girls.

In 1976, the state and district levels divided girls into two classifications based on school size, "AA" and "ABC." This ended the "classless" county championship race in Montgomery County, but one coach kept the idea alive. Coach Allan Bellman of Kennedy High School pushed for a true county championship meet, and his idea was realized with all teams combined into a single race in a new county championship meet format in 1977.

Unfortunately, the new championship meet was met with resistance from coaches who believed that it served no purpose and added one too many meets into the season schedule. Some coaches initially viewed the meet as a burden because it was scheduled so closely to the truly important state-qualifying meets. Many county teams

opted not to attend the first several county championship meets, or they simply sent their junior varsity squads. By 1981, the Montgomery Journal described the county meet attendance as "dismal." (Niewiaroski, 1981, Oct. 30)

In 1981, attendance at the county championship meet became mandatory, but some teams still sent their JV squads (Niewiaroski, 1981, Nov. 2). Bellman continued to champion the meet despite the resistance. In 1985, he moved the meet to Calverton-Fairland Park closer to his school (Kennedy HS) and when he took the coaching job at newly-opened Watkins Mill High School and later Blake High School, the meet followed him there, too.

Maybe some coaches' arms had to be twisted, or maybe the meet simply gained traction due to the awards, the media recognition, the bragging rights or simply the spirit of the competition. By the mid-1980's, the county championship meet was an annual tradition and the county crowns became coveted prizes for the elite athletes and teams.

As Bellman prepared to step away from coaching, Herb Tolbert of Gaithersburg High School picked up the reins and hosted the county championship meet at Gaithersburg High School almost every year from 2000 to present. The course initially utilized the Gaithersburg High School campus and Bohrer Park, but in 2011, the meet moved entirely to Bohrer Park due to construction on the Gaithersburg High School campus.

For the purposes of this book, the first Montgomery County Championship Meet with boys and girls was in 1977.

Historical Throwback: 1978, 1988, 1998, 2008, 2017

1978 – It was the first county championship meet scored with all classifications combined, and the Churchill boys and girls swept team titles. The Churchill boys team was already in the midst of a Montgomery County dynasty having won the previous four Montgomery County class AA district meets. The Churchill boys went on to win the district and state titles in 1978 while the Churchill girls later succumbed to county runner-up, Northwood, at the district and state meets.

Several teams and star runners bypassed the relatively new county meet to be fresh for the district meet. In the absence of eventual class A state champion, Tom Cuff of Seneca Valley, and a DNF by star runner, Gary Hopkins of Einstein, Dale Schwartz of Kennedy High School won the 1978 county title. Northwood's Susan Kinnecome won the girls county title before winning the Class AA district meet and finishing third in the state meet.

**1988** – Kim Many of Kennedy High School and Tom Eagleson of Whitman High School each won their second consecutive county titles in a driving rain storm. Eagleson won by 25 seconds in 16:18 and Many won by over a minute in 18:53. Many was just as dominant later that season at the state meet while Eagleson was state runner-up.

Despite Kennedy sweeping the top three spots in the girls race, Whitman swept the boys and girls team titles. It was the Whitman boys team's third county title in six years and the beginning of five consecutive team titles. For the Whitman girls, it was the fourth in five years, and third straight.

1998 – It was a short 3 mile course at the newly opened James Hubert Blake High School. Male and female runners posted some of the fastest times in meet history. In the case of the boys, a rematch of an epic rivalry pushed times to record lows.

B-CC's Jarrett Van Tine outkicked Walter Johnson's David Glynn for the second consecutive year, although his eight second margin of victory gave him a little more cushion than the one second victory in 1997. 15:06.24 was the fastest winning time from any venue in meet history. Just like in 1997, Van Tine and Glynn went on to win 2A and 3A state titles after their county duel.

Lucinda Hull became the first female county champion from Quince Orchard High School when she beat out her twin sister 18:03.75 to 18:22.90.

Lucinda later broke 18:00 when the 4A West Regional Meet was again hosted at Blake High School, but Claudin later had the best day at the state meet.

Whitman High School won its eleventh boys county title and ninth in the last eleven years. The Walter Johnson girls team won its first county title which turned out to be the first of five consecutive.

**2008** – Sherwood High School's Solomon Haile smashed records on nearly every cross-country course that he ran during the 2008 season. The county championship was no different. The eventual Footlocker national champion lowered the Gaithersburg High School course record from 15:41.1 down to 15:11.62. Runner-up Andrew Palmer of Whitman High School also ran under the previous record with a time of 15:27.69.

It was considered a wide open year on the girls side with several quality runners expected to contend. Northwest's Britt Eckerstrom won a tight race in which eight girls finished between 18:41 and 19:00. Four rising stars in that race later became XC state champions including 2<sup>nd</sup> place Addie Tousley, 5<sup>th</sup> place Anna Bosse, 8<sup>th</sup> place Jessie Rubin, and 11<sup>th</sup> place Anna Ryba.

The Northwest girls returned to dominance after a one year hiatus. Northwest won its fifth county title in six years.

The Walter Johnson High School boys won the school's first boys county title since 1987, but it was the start of something very good. WJ went on to win four county titles between 2008 and 2012 while they won four consecutive state titles between 2008 and 2011.

2017 – It was a runaway win by three time county champion Abigail Green of Walter Johnson High School. Her time of 17:57.20 was the second fastest performance in meet history only behind her 17:46.62 from the year prior. The WJ girls won their fourth consecutive county title en route to winning five consecutive 4A state titles.

Poolesville Ryan Lockett fended off a star-studded field that saw five boys go under 15:40 and four more go under 16:00. Although the course record was not broken, many thought it was the fastest and most exciting meet at least since the meet was moved to Bohrer Park in 2011.

Whitman High School won its county-leading 14th county title in meet history. They did it with a varsity team made up entirely of sophomores and juniors.
